

ANPI VIP HOSTED UNIFIED COMMUNICATIONS

More Features, More Services, More Innovation

More than just a phone system, ANPI VIP is a hosted unified communications solution that gives businesses the ability to be accessible anytime, anywhere, on any device. Businesses can now take advantage of integrated voice and collaboration tools in the cloud without the cost of maintaining expensive on-site equipment. In fact, you can save up to 50% over traditional premise-based systems. Easy to customize and easy to use, ANPI VIP allows businesses to communicate more efficiently and take advantage of a range of innovative features. And all businesses, no matter the size, receive VIP treatment from our committed support staff.

Productivity Features

Simultaneous ringing, find me/follow me, voicemail-to-email, web meeting, desktop sharing and seamless integrated mobility are just a few of the many features ANPI VIP offers. All can be personalized for each user with no on-site IT expert required. Existing phone numbers can be ported to the new service, eliminating the need to change business collateral or contact information.

Unlimited Local, Long Distance and International Calling

While most providers offer local and long distance calling, only ANPI VIP includes unlimited local and long distance, plus international calling to 22 countries* – at no additional charge. For a company conducting business internationally, this can make a world of difference.

ANPI VIP Customer Administration Portal – Powerful and Easy to Use

ANPI VIP has a proprietary, widget-based Customer Administration Portal to monitor and control every aspect of your phone system. One user can be designated to administer the main phone system while all other users can manage their individual features and needs.

Developed for Businesses of Any Size

ANPI offers three specialized solutions, each designed to fit a specific business need. While business executives crave the convenience of integrated mobility and collaboration, a conference room extension may only require call management and unlimited local and long distance. Whatever your needs, we have the right solution to elegantly and economically address them.

Reliable Nationwide IP Network

ANPI owns a nationwide network, backed by a 24x7 network monitoring center. Every month, millions of end users rely on the power of the ANPI network to meet their communications needs.

Incomparable Customer Care

ANPI is focused on getting your new communications system up quickly so your business can immediately realize the productivity benefits built into our range of solutions. Our back-office systems and portals have been carefully designed to achieve that outcome and are backed by our dedicated Customer Care staff. ANPI stands ready to quickly respond to your needs long after the sale.

Low, Set Monthly Fees

With no on-premise PBX system to upkeep, simply pay a small, set fee every month. No surprises.

ANPI VIP PACKAGES

VIPremier

Corporate executives and busy managers need every available communication option. ANPI VIPremier includes all the unified communications features of ANPI VIPProfessional, plus real-time, time-saving collaboration tools – desktop sharing, conference bridge access and audio, web and video sharing, among others.

VIPProfessional

The most popular package for today's busy managers and knowledge workers, ANPI VIPProfessional provides advanced calling features, along with unlimited local, long distance and international calling to 22 countries. It includes the convenience of seamless integrated mobility with presence and find me/follow me. With the mobile app (for iPhone, iPad or Android), ANPI VIPProfessional lets users conduct business anywhere, anytime, on any device.

VIPrecision

Reception desks, conference rooms and other high volume seats need advanced features and unlimited calling. ANPI VIPrecision includes a dedicated phone number with unlimited local, long distance and international calling to 22 countries, as well as a complete collection of advanced call-handling features.
